Thank you for your interest in NYSE data. This questionnaire is intended to simplify user application requirements while furnishing customers and data providers with the information needed to sanction the release of market data. Please follow the instructions below and answer all questions accurately and thoroughly to ensure timely processing of your market data request(s).

Customers should complete a separate questionnaire for each market data source (or consult your NYSE account manager for further instruction). One questionnaire may include several sites utilizing a single market data vendor source. If more than one location/environment exists with different levels or controls, a separate questionnaire must be completed for that location.

All customers who wish to receive market data via a data feed are required to complete and submit this Exhibit A. In addition, NYSE requires:

- 1. Executed copy of the Vendor Agreement (if currently not on file)
- 2. Datafeed request(s) submitted by your data provider to NYSE on your behalf

All required documents should be executed and returned to your account manager or:
