1. INTRODUCTION

This real-time low latency product provides top of book quote data for all traded securities on the respective NYSE exchanges. This data is intended for clients who require a direct, unconsolidated feed and timestamps provided directly from the Exchange matching engines.

1.1 Publication Times

Please refer to the market open pre-opening, early trading, core trading and late trading session times on: <https://www.nyse.com/markets/hours-calendars>
